

## Global Perspectives Travel Immunization Requirements

The mandatory vaccinations are necessary for international travel. The highly recommended vaccinations are identified by a comprehensive travel medicine database specifically related to international health and travel as moderate risks to travelers. These may include but are not limited to country, region, elevation, province, and city.

### **Italy Business**

**December 7-19, 2022**

#### **Mandatory:**

- MMR (Measles, Mumps, Rubella) vaccines x 2 or positive titers
- Varicella (chickenpox) vaccines x 2 or positive titer

#### **Highly Recommended:**

- Tdap (Tetanus, Diphtheria, & Pertussis), update every 10 years

Moderate risk of Sandfly Fever. Take steps to protect against sandfly bites:

**\*\*Per Lee University Travel Policy: University sponsored domestic and international travel will proceed consistent with CDC guidelines and with recommended guidance from the U.S. State Department Travel Advisories. A testing protocol may be required before and/or during group travel, depending on the group and the destination. Similarly, COVID vaccination requirements for international travel are determined by the country of destination. The trip directors will alert their participants to any updates.\*\***
