

Global Perspectives Travel Immunization Requirements

The mandatory vaccinations are necessary for international travel. The highly recommended vaccinations are identified by a comprehensive travel medicine database specifically related to international health and travel as moderate risks to travelers. These may include but are not limited to country, region, elevation, province, and city.

Honduras Medical Missions

June 3-17, 2023

Mandatory:

- **MMR (Measles, Mumps, Rubella) vaccines x 2 or positive titers**
- **Varicella (chickenpox) vaccine x 2 or positive titer**

Highly Recommended:

- **Tdap (Tetanus, Diphtheria, & Pertussis) vaccine, needs to be updated every 10 years**
- **Hepatitis A vaccines (series of 2)**
- **Hepatitis B vaccines (series of 3)**
- **Typhoid vaccine**
- **Malaria Prophylaxis**

****Mosquito protection/avoidance recommended due to risk of Chikungunya Fever, Dengue Fever and Zika Virus** Risk of Chagas' Disease "kissing bug"**

****Travelers' Diarrhea is considered high risk in Honduras**<https://wwwnc.cdc.gov/travel/page/travelers-diarrhea>**

****Per Lee University Travel Policy: University sponsored domestic and international travel will proceed consistent with CDC guidelines and with recommended guidance from the U.S. State Department Travel Advisories. A testing protocol may be required before and/or during group travel, depending on the group and the destination. Similarly, COVID vaccination requirements for international travel are determined by the country of**

destination. The trip directors will alert their participants to any updates**
